ble in the market yesterday, with better offerings. New Wheat is coming in a little more freely, and the first new Flour of the season was received and sold. The demand for Flour is limited to the city trade, and we quote old Super at \$5.75(a.\$5 .-874, with very limited transactions. New Extra was sold at \$7-sales of old at \$6.50. Sales of new Family of a superior quality at \$9. Although the receipts of new Wheat are increasing, yet there is an evident disposition on the part of farmers to hold back, and but small lots are sent at a time. The market is unsettled, and prices can not be said to be fixed. There were sales of common new red at 123c.; 135c. was offered for fair white but refused. There was a sale on Tuesday of a lot of prime white at 145c. It is thought that prices will range at 120(a 130c, for red, and 130(a, 140c. for white. Corn is in fair request at 80(a 82c. for white and yellow. Rye is dull, with sales at 70c, from the cars. Outs are flat at 125@130c., and but few buyers. The Markets. Crops and Money at the West.

The Cincinnati Gazette says:-"Preparations making in the interior, and at the West, for moving the new crops, attract currency from the com mercial centres. The impression prevails the farmers will sell early and freely, and merchants The impression prevails that are governing themselves accordingly. This promises to cause a heavy demand for currency, unu-sual at this period of the season, and while the banks of issue are supplying the vacuum, matters may be close, but this state of things, cannot be of long duration, as the banks of Ohio, Kentucky and Indiana are in a condition to expand largely and safely, if bills based upon produce shipments are offered, and the latter will be in good supply if crops move at all; for produce will not be pur ed to any extent at the West, with a view to hold on speculation. This experiment has been trie I to the satisfaction of operators, and as there is now no short crop basis to work upon, it is not likely that the channels of trade will be blocked, during the summer at least, by any movements looking to the hoarding of breadstuffs.

THE WHEAT MARKET. The price of wheat i the absorbing topic with the farmer, and as all other interests are more or less involved in the success of this class, the public may well be sidered as having nearly as direct an interest in the matter. The market opened here on Friday last at \$1,50

for prime white wheat, immediate delivery, but this price has not been maintained. On Saturday. Monday, and on yesterday, sales were made as low as \$1.27 (to be delivered on the river,) up to \$1.45, delivered in the mill. We saw a lot sold at the last named figures on yesterday, and heard of other sales at \$1.40. Up to this time about 3,000 bushels have been purchased at the prices indicated above. The Richmond dealers are very slow in naming

price. The "Examiner" says that a few parcel new wheat, white and red, have arrived, but that no sales have been made, and that 600 bushels of white wheat were lying at the depot of the Richmond and Danville Railroad in that city, but that no price had been fixed. The "Enquirer" of Tuesday morning says:-"Doubtless sales will take place between this and Saturday, and new will, perhaps, start at \$1.50, but will come down to a tamer figure in a brief time unless some 'important war news" should arrive to keep up The Alexandria Gazette of Tuesday says :-

"Wheat is very quiet. There were light offerings, among them some small lots new white and red; but we have no sales to report, and are unable t give quotations."

Register:

Alexandria & Orange Railroad last week, writes us that the laying of the rails is steadily progressing, and with the exception of a few nundred yards, at "Hickory Hill," five miles above Charlottesville, the road is completed 15 or 16 miles-about four miles beyond when the work will progress more rapidly. The excavation is nearly completed to Faber's Mills, in Nelson county and from that point to Rockfish river it is rapidly proto "Gordon's Summit" there is still much work to be done; and from Gordon's summit to the Lovingston Depot very little has been done, except the culverts. The grading on The Superintendent of the road informed our correspondent a few weeks since, that the road would certainly be in running order from Charlottesville to the Lovingston Depot | far exceed those of any previous year. by the 1st of October. The Board of Directors have determined to suspend the work on several of the most difficult cuts between Rucker's Run and Lynchburg, and to substitute temporary tracks to facilitate the opening of the whole line at the earliest day possible. When that day will come it is im-December next, or by the end of the year .-At a meeting of the Board of Directors, at Alexandria, on the 30th of June, the vexed question of the location of Depots in Nelson county was settled. The first depot in the ardsville turnpike the second at the point where the Lovingston and New Market road crosses the railroad—the third at Arrington's, between Rucker's Run and Tve River. As some difficulty exists in getting a county road to the latter place, this Depot seems not to be definitely fixed. It is likely it may be removed a few miles higher up the line. This arrangement seems to afford pretty general satisfaction to the people of the county. A few individuals, who desired depots at other

A DIFFICULTY.-The difficulty between Messrs. Wise and Aylett is supposed to have grown out of an editorial which appeared in the Enquirer a few days since, and in which one "Augustus Tomlinson," was repeatedly referred to, in terms not over complimentary, and the general impression seems to be, that this "Augustus Tomlinson" was intended for Mr. Patrick Henry Aylett. How the affair will terminate, it is impossible now to say, but that the parties have left the city is the universal belief, and that, too, for hostile purposes. I am informed that the officers have instituted most "diligent enquiry," like the "wise men of the east," but with all their vigilance and indefatigable exertions, the search so far has proved unsuccessful.-Petersburg Express.

THE STAUNTON BANKS .- Nothing is more common than to hear our citizens complain tempting to the palate. that the Banks in Staunton cannot accommodate them with loans on good paper. This is to some extent true, but have our people thought of the cause of it! The reason is, that the Richmond brokers-and we fear some of the banks-are waging a constant war on

the interior banks. The moment a note of Beef Cattle .- The offerings at the different yards | the country banks falls into their hands, it is sent home for redemption in gold and silver. The fear of these runs for specie compels the country banks to be very cautious in their discounts, and to withhold accommodation from the people at the very time they need it.

Now if our farmers and cattle men would only act with a little forecast, they could remedy this evil, and secure to themselves the Washington Association, they were hosgreat benefits. The process is a simple one. It is this: Let our citizens, when they send their flour, hay, whiskey, cattle, &c., to market, require their Commission Merchants to send them checks on the Richmond Banks in payment. Then let our citizens hand these checks to the Staunton Banks. This will make the Staunton Banks creditors of the Richmond Banks, and when the brokers come up with Staunton notes for redemption, our banks, instead of paying out gold and silver, can redeem their notes with checks on Richmond Banks .-- Staunton

PASSPORTS REFUSED.—Private letters from the continent of Europe intimate that the American officers, who had been permitted by the United States to go to the scat of war in order to gain military insight into war tactics, by observation of the contending powers, have been refused passports to travel thither. FURTHER NEWS FROM EUROPE. NEW YORK, July 13 .- The Steamship Etna, from Liverpool on the 2d, arrived here this forenoon, bringing the regular dispatches of the Associated Press, and full files of the

Liverpool and London papers. It was believed in some Parisian quarters that the French loss in the battle of Solferino amounted to 16,000 or 18,000 men, divided as follows: Marshal Neil's corps 6,000 to 7,000; Marshal Hillers's corps nearly 5,000; Marshal McMahon's corps 2,500; Marshal Can-robert's corps 1,000; besides many casualties in the artillery and others special corps. The French people are said to be dissatis-

fied with the scantiness of the details as yet published in the Moniteur. The Austrians had seven general and very many superior officers wounded. Gen, Greschke was killed. Some of the French regiments were nearly cut to pices. The Piedmontese suffered so severely as to be incapable of forming a line of battle.

The Vienna correspondent of the Times writing on the 29th says, that some days must elapse before complete returns of the losses of the Austrians could be received .-The same writer says the Italian regiments in the Austrian army have become very difficult to manage. The men desert by scores and fifties, and in the neighborhood of Trieste, a whole battalion has raised in favor of Victor Emanuel. A vessel on the coast, under American colors, had been detected in

taking deserters on board after dark. The people of Milan have made a threat ening demonstration against the Jesuits, whom public rumors accuse of keeping up a ecret correspondence with Austria.

The municipal body of Vienna have of fered to maintain peace and order in case it is necessary to dispatch the garrison of Vienna to the seat of war.

Enormous masses of French soldiers are marching into Piedmont, ria the Nice and Mt. Cenis reutes.

The Emperor Napoleon was in perfect health, and the sanitary condition of the army excellent. The headquarters of the French army were at Vallegio, where Prince Napoleon was expected to arrive on the 30th. It is reported that at the battle of Solferino nearly every officer and man of the artillery

and imperial guard was put hors de combat Austrian accounts admit the loss of twen-ty thousand killed, wounded and missing. It is stated that not a single Hungarian re iment was allowed to take part in the batde, and that the Italian regiments had all previously been sent into the Tyrol.

Twenty thousand corpses are said to have been buried after the battle, and many more were left lying in the ditches and corn fields. Berlin. - Vienna letters confidently speak of negotiations having been opened by Prussia with England and Russia, for the purpose of establishing, if possible, a basis for a com-

bined mediation. The military commission of the Frankfort Diet is said to have approved the demand to move an army of observation on the Rhine. The French are making immense naval oreparations in the Adriatic. The real difheulty is in getting rid of the Austrians without injury to the inhabitants of the city of

Venice The Brest fleet is composed of nine liners two heavy frigates, and one floating battery. Two London papers state that there has been a meeting at Paris of inferior diplomatic agents of France in the Levant, and that they have been dispatched to their posts by or ders from the Emperor. It is presumed that they have orders to aid in the getting surrection in Turkey, in the inter-

st of Russia. Garibaldi has received orders to occupy the upper Valtelline, and he was expected at Torano with 3,000 men, and where 500

Piedmontese had already arrived. Skirmishes have taken place near Bormis between the French corps of Mallettino and the Austrians guarding the Stelvio pass. The Austrians number thirteen companies of infantry and two of the earbineers, and occupy positions between Churus and Trafoi; and a battery has been placed in position to command the road to Stelvio. Barricades have also been erected, and there is great

fear of a descent on Garibaldi. The Swiss federal council has decided with the belligerents that any soldiers seeking shelter on Swiss territory shall be sent back to their country, the government engaging to not employ them again during the present war.

The garrison of Lavens and the soldiers of Garibaldi's corps will consequently be sent

It is said that the Austrian Emperor has ordered the recrossing of the Mincio, in opposition the advice of Gen. Hess.

NEWARK, N. J., July 12.-We seem to be in the midst of a murder carnival. But a few weeks ago Patrick Mand shot and killed his sister in the fifth Ward; a little later, Peter Miller, a German, was stabbed and killed at a pic nic in the eleventh Ward by one Henry Kaufman, who is supposed to have fled to Canada. On the 4th inst., Charles Robinson, an estimable citizen, was brutally murdered in the suburbs of the third Ward by some unknown parties, and now we have to add another to this fearful list of crime. On Saturday last, a young man named Stephen Cunningham was beaten so badly by one John Adams that he died of his wounds this morning. The affray occurred in a grog shop, in Canal street, in the fourth Ward .-Adams has escaped. The coroner's jury is in

session this afternoon. ALBANY, July 12.—The political and social circles have been greatly stirred to-day by a matrimonial affair. Peter Cagger, the well-known politician and lawyer, was married this morning to the sister of Wm. Cassidy, the equally well-known editor of the A:las and Argus.

AQUELIN HALL FOR SALE.—The under signed, Commissioners appointed by a decree of the Circuit Court of Madison county, pronounced at March term, 1859, will offer for sale, at pubhic auction, on the premises, on Tuesday, the 16th day of Angust, 1859, if fair, if not the next fair day, this beautiful and highly valuable farm. It lies in the county of Madison, on the Rapid Ann River, six miles distant from the Orange and Alexandrix Railroad, six from Barboursville, three from Montpelier, and eight from Gordonsville, with which place it is connected by the Blue Ridge Turnpike Road passing through the farm tract contains, by a recent survey, THREE HUN-DRED AND EIGHTY TWO ACRES, three Roods and sixteen Perches of open Land, and he hundred and fourteen acres of Wood Land. The land is well watered, with never failing springs and streams of pure free stone water; hes beauti fully, and partakes of the character of the South-West Mountain soil, (red, with chocolate gravel.) and of that of alluvial river lands. The soil, originally fertile, is now in a high state of improvement, and is well adapted to the growth of Wheat,

Corn, Tobacco and the Grasses.

The DWELLING HOUSE is a new, handsome and commodious frame building, three tories high, including the basement, with a tin coof and contains eight rooms, a large hall, a store room and two cellar rooms, besides dressing rooms and closets. The site is a commanding one, affording a fine view of the Mountains and arrounding country. The neighborhood is as healthy as any in Virginia, and is a very desirable The Garden is an excellent one, and adoining it there is a young and promising Orchard. There are many Churches of the different denominations in the neighboring Villages. Within less than a mile are a Merchant, Grist and Saw-Mill, a Smith's Shop, two Stores and Post Office. The
